**Compactness measures:** Each measure is reported on a scale of 1 or greater, with lower numbers being more compact. On each scale, a score of 1 indicates perfect compactness. There is no upper limit to the score under any of the measures on this report.

**Rank:** Rank indicates the relative compactness of each district compared to the other districts in the plan, with 1 being the district with the most compact score for the specific compactness measure.

1. "Perimeter to Area" is the ratio of the area of a circle with the same perimeter as the district to the area of the district.  
2. "Smallest Circle" is the ratio of the area of the smallest circle enclosing the district to the area of the district.
